Pathways to SmartCare Launches New Web Site Design

AUGUST 19, 2008, PITTSBURGH, PA-Pathways to SmartCare has recently launched a new web design on their web site [www.pathwayswellnessprogram.com](http://www.pathwayswellnessprogram.com). The design features more reliable navigation, easily accessible contact forms, a fully integrated blog and easier access to important information.

A key feature includes a new Flu Shot Event Locations listing page. Throughout the flu shot season, Pathways to SmartCare organizes in-house flu shot events for businesses, organizations, community centers and local health events. Although there are many locations for private businesses, we have only published those that are open to the public. Flu shot events start October 1, 2008.

Another addition to our web site is the Press Release page. This page lists all of our press releases for the programs that we are initiating across all aspects of our wellness programming. This includes Farm to Table, HealthMart, Flu Shot Events, and American HealthCare Group, Inc, our parent business.

Take a look around and let us know what you think. If you run into any problems, please notify our webmaster by emailing her: [mary@marykatecreate.com](mailto:mary@marykatecreate.com)

We would like to specially thank Mary of MK Digital Media for working closely with us for the past five years to bring Pathways to SmartCare and our programs into a valuable resource for our program participants and employer clients.

We hope you enjoy!
