ON-SITE IMMUNIZATION SERVICES

Pathways to SmartCare®, a division of American HealthCare Group, offers an on-site immunization program that provides adults protection against several preventable diseases. Each year we coordinate over 400 immunization clinics at senior and family apartments, senior centers, corporations, school districts, pharmacies, as well as political and community events. We use credentialed professional nurses that ensure the highest level of safety as well as comfort.

IMMUNIZATIONS AVAILABLE

- Seasonal Flu (Includes H1N1)
- Pneumonia - Pneumovax 23 and Prevnar 13
- Tetanus, Diphtheria and Pertussis (Whooping Cough)
- Hepatitis A/B
- Varicella (Chicken Pox)
- Shingles
- MMR (Measles, Mumps, Rubella)
- HPV (Human Papillomavirus)
- Meningococcal Disease/ Meningitis

We also provide administrative staff at the clinic to ensure an efficient and organized operation. An online scheduling tool is available to larger groups for ease in vaccine reservations. Most of the immunizations offered are a covered benefit under employer health insurance plans. Our Immunization Program operates under the medical supervision of Physicians who are in-network with virtually all commercial and Medicare health insurance plans in Pennsylvania.

Pathways can cover your employees across the country through our national voucher program at your local retail pharmacy!

For those participants who do not have health benefit coverage, competitive rates and group discounts are available.
