NATIONAL IMMUNIZATION PROGRAM

Pathways Wellness Program has teamed up with Walgreens to bring a national employee immunization program to your group!

Pathways Wellness Program delivers thousands of on-site immunization clinics to employers throughout the U.S. For remote employees, and those who cannot attend an onsite Immunization Clinic, we have created a program that allows employees to bring payable vouchers to their local Walgreens to receive their immunizations.

We take care of the details

The program is simple – Clients receive a voucher from Pathways to disperse to employees. The employee brings the voucher to their preferred Walgreens and receives the needed vaccine.

Pathways will send the client an invoice as employees redeem the vouchers. We will then report the recipients to the employer for recording purposes.

Vouchers are available for all immunizations – not just flu!

Incentive Program Integration

Because we will report to you who is receiving what immunization, employees can still receive points towards incentive programs that they are involved in.
